Re: Permission to publish photographs

There are times throughout the year when we publish information and photos of special events on our website, school facebook page or other media. We are aware that some parents may not wish their child's photograph to be published. **Please note that we never publish student names without specific permission.**

If you DO NOT wish your child's photograph to be published, please inform us by submitting the form below. If you do not return this form we will assume permission to publish photographs.

Thank you!

Please do not publish photos of my child.

Child's Name

Parent or Guardian's Signature

_____/_____/_____
Date

Developing the Light in Every Child
